Re: Mortgage Contracting Services Update

As one of our valued partners, you have contributed to Mortgage Contracting Services' (MCS) success as a leading provider of property preservation services. Since our founding, our focus has been to deliver our customers the best possible service and experience, maintaining the highest of standards in the industry. You have greatly helped us achieve those goals.

We're excited to share that the Mortgage Contracting Services division has entered into an agreement to become part of Stewart Information Services Corporation's family of companies. More specifically, Mortgage Contracting Services will be part of Stewart's Real Estate Services division, where the MCS property preservation capabilities complement the broader suite of services offered by Stewart.

The transaction is expected to close in December 2025, and you can find the press release here: [Stewart Strengthens Real Estate Services Portfolio by Announcing its Intent to Acquire Mortgage Contracting Services \(MCS\)](#)

Chad Mosley, President of Mortgage Contracting Services, will continue to lead the team, and there will be no near-term changes to how you receive work orders, interact with the team, or how you receive payment. We will keep you posted on any changes as the transition progresses.

We're enthusiastic about the future and look forward to continuing our journey together.
